APQP Managers Certificate

Thank you for helping to drive the cultural shift for APQP

This document certifies that Fernando BLANCO has successfully completed the training titled "[SU] APQP FOR MANAGERS".

Conducted from 3/11/26 to 3/11/26.

Demonstrated understanding of Advanced Product Quality Planning (APQP) principles and the leadership responsibilities required to successfully guide cross-functional product development and launch activities. Certified skills include organizational alignment, strategic project planning, risk identification and mitigation, cross-functional collaboration, customer-focused decision making, and proactive quality management to support successful, on-time product and process launches.
